

The 2026 World Cup is fast approaching, and we love to see churches sharing Jesus in their community through football, so whether young or old here are some ways for you to use football this summer!

Coach

You can run a 2-hour footballing session, complete with games, small talk for children in your church and community. We have produced a step by step plan with all the information, games and equipment you need to run.

Play

We love the term 'jumpers for goalposts' and we have seen churches just go and play. It can be a church hall, park, cage, leisure centre, 5, 7 or 11 aside pitch. Why not just invite, go and play football or even do walking football with the 50+. A great way to build fellowship to share Jesus.

The FA is now launching 3v3 for children's football that can be easily run in church halls. You can see all the information <https://futurefit.Englandfootball.com/futurefit/a-closer-look-at-3v3/index.html><https://futurefit.Englandfootball.com/futurefit/a-closer-look-at-3v3/index.html>

Watch

Can you hold a screening of matches and invite people along to watch, have a BBQ with them or just share fellowship.

In terms of rules you are free to show games on big screens if your church has a TV Licence, the event has free entry and no more than 5000 people. FIFA viewing regulations can be found at https://publicviewing.fifa.org/public_viewing

Quiz

Christians in Sport run a great quiz that churches use to have a great night of quizzing and sharing faith. [CLICK HERE](#) to check it out.

Resources

We write weekly talks during the season based on Football & Faith. These are called Talk Football that you can receive by signing up here and clicking Talk Football. [SIGN-UP](#) here to start receiving it!

We also will have some World Cup specific ones available on our World Cup Resources page [HERE](#).

If you would like any information or to speak to someone regarding your event or further ideas, please email gb@ambassadorsfootball.org We would love to hear from you!
